Art Unit: 2133

1. Claims 1-3 are remain rejected under 35 U.S.C. 102(e) as being anticipated by Yuzawa et al (6,557,106).

(See the teaching of Yuzawa et al as discussed in the office action dated on February 24, 2004).

2. Claims 4-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3. Claims 15-27 are allowable.

4. Applicant's arguments filed on 6/7/04 have been fully considered but they are not persuasive. This is because Applicant argues that Yuzawa et al does not teach or suggest the step of verifying multi-wired cable connections between adapters and processors along a system bus, or between adjacent I/O modules.

Examiner disagrees with applicant because there is not any step for verifying multi-wired cable connections between adapters and processors along a system bus, or between adjacent I/O modules that recited in these claims.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be

calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
